**Announcement Number:** [CAPNWC02-4206-215](#)

**Date Opens:** 04/04/2002

**Date Closes:** Open continuous

**Locations:** Washington, DC; Bethesda, MD

**About Us:** Navy Public Works Center is the Regional Facilities Management Team. We offer timely, best value, innovative, technological solutions and alternatives to meet our clients' facility management needs. We support the missions and provide the best Quality of Life for our NDW Family. Our facility services include: life cycle management, planning, maintenance, repair, construction, engineering, building services, grounds maintenance, transportation, utilities and other installation support.

**About the Job:** Installs, modifies and repairs new and existing plumbing (piping) systems and equipment such as steam heating (low pressure), heating exchanger, water, sewer, oil and air. Installs small heating boilers, which do not require boilermakers. Installs and maintains piping systems such as sanitary drain, fire protection, sewer lines, oil and air lines. Installs piping and bores holes in walls, floors and ceiling to permit passages of pipes exercising care to avoid damage to building structures. Work will include but is not limited to demolition and debris removal. Assists other trades, as deemed necessary, under a team concept. Incumbent may have to work with hazardous materials including the abatement and removal of lead and asbestos.

Located on the Historic Washington Navy Yard, Naval District Washington is the Navy's Flagship in the Nation's Capital.

### **KNOWLEDGE, SKILLS AND ABILITIES**

1. Ability to do the work of the position without more than normal supervision (Screen Out).
2. Knowledge and ability to use tools of the trade.
3. Ability to use shop equipment and tools safely.
4. Knowledge of technical practices in the trade.
5. Ability to troubleshoot.
